

I am blessed to have been a recipient of the services of Compassion In Action - USA. When I first met Barb, I was a medical mess without much hope. Barb used her personal knowledge and made positive things happen when I was unable to do it myself. To simply say "thank you" will never ever be enough payment to this humane organization. Barb extends her kindness, patience, and generous beliefs out of a heart that is large enough to envelop the world. I am still disabled, however, if Compassion In Action hadn't stepped up to the plate, I seriously believe that I would be homeless, helpless or dead even now because once the downward spiral grabs hold, to get up again is very difficult if at all.
