

Barbara Case and Compassion-in-Action are "Lifesavers" when we felt completely defeated by the "system" after my husband, Ron, was denied Soc. Sec. Disability Benefits. (He has many, many health issues with the most apparent being that he could no longer walk and the severe knee pain was crippling. We could not believe that he was denied.) Barbara threw us a "Life Rope of Hope". Her knowledge was so helpful and her voice was so calming. Helping us step-by-step on the procedure of Appeals was so comforting. I felt so overwhelmed and scared. Barbara always had the answer for everything. We spent many hours on the phone going over paperwork. She spent many more hours contacting Doctors for us and then submitting all the necessary documents that we needed to "WIN" all the while not asking for a cent in return. The people that Compassion in Actions have helped....are blessed. I know that we are blessed and very grateful for all that Compassion has done for our family. I know that with Barbara Case/Compassion in Action on your side helping.....there is a light at the end of the tunnel.
