

Compassion In Action-USA was a God send. Both my husband and I were on the verge of having no income and we were ill, me with Ovarian Cancer Stage IIIc and him with two heart conditions and COPD. Barbara knew what paper work we needed to move the process faster and stayed on top of things so we got what we needed faster than we would have on our own. It was reassuring to have someone who knows the system on our side and get through the process in a quick and timely manner. We are very grateful for all the help that Compassion In Action-USA and Barbara Case gave us.

Pat
